

**SAPPHIRE EDGE AI™ 300 SERIES  
BIOS UPDATE  
STANDARD OPERATING PROCEDURE**

## BIOS update steps:

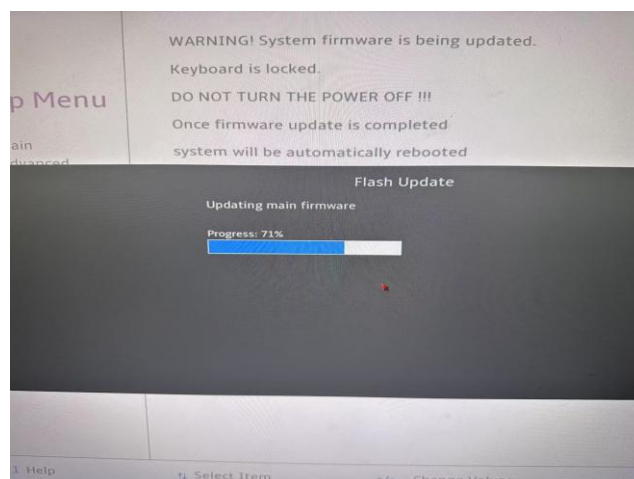

1. Power on SAPPHIRE EDGE AI Mini PC
2. Enter Microsoft Windows 11 operating system
3. Download the latest BIOS into system
4. Unzip the BIOS into respective folder
5. Open the folder and execute the file with filename
  - a. SAPPHIRE\_EDGE\_AI\_BIOS → "EDGE\_AI\_BIOS\_WinFlash"

6. System will automatically reboot the system and enter BIOS setting to update BIOS. Once the BIOS is update successfully, the system will reboot automatically

## NOTE:

**PLEASE DO NOT SHUT DOWN OR DISCONNECT POWER FROM THE SYSTEM**

7. Repeat the step 5 to step 6 once again after system reboot

## NOTE:

**This BIOS includes critical update, therefore, the BIOS requires to update twice**
